AGENDA/DISCUSSION SUMMARY					
<p>We ran into some more trouble with the database when we learned that we wouldn't be able to store Objects as fields of other objects and that Inheritance would not work the way we were doing it.</p> <p>-Brandon spent most of the meeting figuring out how to change the database interactions to work with the new format of the Java classes</p> <p>-Curtis, Todd, and Fei worked on flattening the Java class hierarchy since Inheritance wouldn't work anymore.</p>
